

FY21 Pavement Preservation Project

SPRING 2021

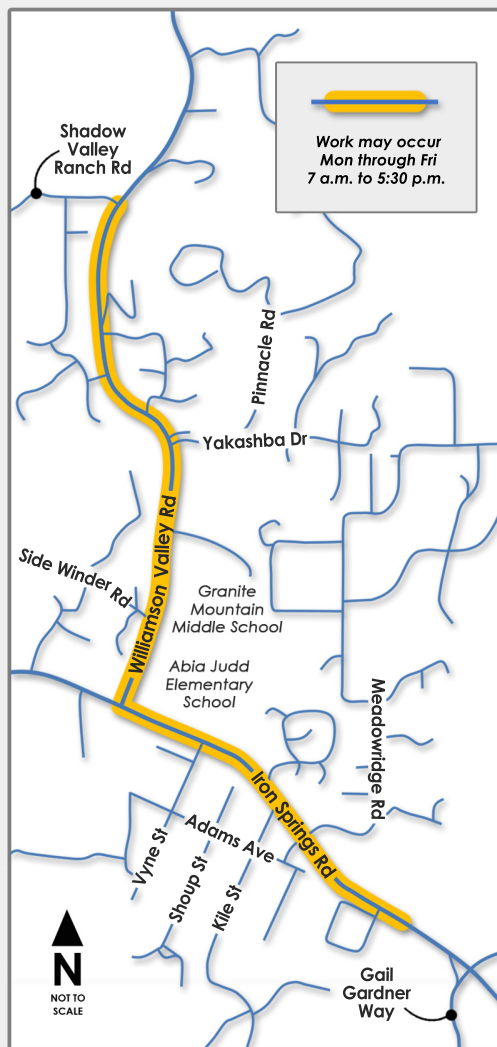

The City of Prescott and their contractor, Sunland Asphalt, are set to begin a pavement preservation project. Pre-paving activities are scheduled for the week of May 24, 2021, with asphalt removal beginning June 1. The project consists of milling the roadway and installing a chip seal application along the roadways highlighted in the map below. Crews will return in late summer to apply a seal coat. Additional work includes the adjustment of utility covers to the finished road grade and restoring disturbed traffic striping.

Once complete, these improvements will extend pavement life and improve the ride quality for Prescott motorists. The project is scheduled for completion in fall 2021.

The City is dedicated to keeping the traveling public, businesses and residents informed of potential construction impacts throughout the project.

**For questions and
project information, call the
Project Hotline at
(928) 237-3114**

Please be aware of lane closures,
reduced speeds, rough road
conditions, loud noise and flagging
operations throughout the work zones.
Motorists should allow for extra
time to get through the area and use
an alternate route if possible.
