Prescott Fire Training Tower

December 2025

PUBLIC SAFETY PROJECT

The Prescott Fire Training Tower consists of a NFPA Certified Custom Fabricated Live Fire and Confined Space Five (5) Story Training Facility specifically prepared for the Prescott Fire Department. The work includes but is not limited to the training tower and foundations, site preparation, to include removal of the existing concrete slab, and importing select subgrade materials, and grading to provide for positive drainage away from the tower.

Danson Construction has been selected to provide Design/Build services for the project. Danson submitted a Guaranteed Maximum Price (GMP) proposal for design and construction services. Council awarded the contract at the October 28th Council meeting.

Construction of the project is estimated to start in February 2026.
